Education

•Bachelor of Technology in Computer Science and Engineering(AI and ML) *2023 - Present*
Vellore Institute of Technology, Bhopal CGPA: 8.20

Personal Projects

•SAFESTEP - A Stick for the Blind

Smart Navigation aid for Visually Impaired individuals using phone camera and real-time Obstacle alerts via Audio Feedback.

- Utilizes computer vision to detect nearby objects and alerts users with audio cues like "object detected" for improved spatial awareness.
- Winner of IEEE Hackathon at VIT Bhopal – recognized for innovation in assistive technology and impact on accessibility.
- Technologies Used: Python, OpenCV, TensorFlow, and Text-to-Speech (TTS) .

•Bank KYC Remediation Platform

Built an automated KYC document verification system that processes and validates identity documents using Agentic AI.

- Developed an agentic AI-powered document processing pipeline using LangChain and LangFlow that automatically identifies document types (passport, driving license, identity card), extracts structured data using Azure Form Recognizer, and validates information against existing databases.
- Technology Used: Python, Azure Services, Azure Form Recognizer, OpenAI GPT-4, LangChain, LangFlow, Agentic AI, Flask, React, pandas, openpyxl, OCR, NLP, REST API.

•MailFlow - AI-Powered Customer Support Email Triage and Response System

Designed an Agentic AI System to Automate Classification, Routing, and Replying to Customer Support Emails.

- Built a Flask-based backend integrating Gemini 2.0 Flash and fine-tuned BERT to analyze email intent, auto-route queries to departments, and generate relevant AI-powered replies.
- Technologies Used: Python, Agentic AI, Gemini 2.0 Flash, BERT, Flask, Machine Learning, Gmail API, MySQL, HTML, CSS, JavaScript

Experience

•Coforge BPS, Pune *May - July 2025*
AI Engineer Offline

- In-depth understanding of Microsoft Azure services such as Form Recognizer, Blob Storage, OpenAI, and Communication Services.
- Proficient in designing, deploying, and managing Process solutions via LangChain.
- Strong knowledge of architectural best practices—LangFlow Framework, security, performance, and ML optimization.
- Hands-on React experience integrating LangChain for automation projects using Cloud Services.

Technical Skills and Interests

Languages: C/C++, Python, JavaScript, React, HTML + CSS
Libraries/Tools: LangChain, LangFlow, Pandas, scikit-learn, TensorFlow, OpenCV, Text-to-Speech (TTS), React.js
Web Development: Node.js, Git
Frameworks: React.js, Express.js
Cloud/Databases: MongoDB, MySQL, Azure Blob Storage, Azure Cosmos DB
Relevant Coursework: Data Structures and Algorithms, Operating Systems, Object-Oriented Programming, Database Management Systems
Areas of Interest: Web Development, AI/ML Applications, Cloud Security, Assistive Technology
Soft Skills: Problem Solving, Self-Learning, Presentation, Adaptability, Team Collaboration

Positions of Responsibility

–**Marathi Club - President**, VIT Bhopal *Apr 2024 - Present*

- Managed 11k+ Students at the event.
- helped the Club Collect 5 lakh+ donation amounts.
